I've added some new categories under " Haunts" in the Paranormal Agencies area. Just to help identify general region. I've moved the existing listings into the proper areas.

Also I've added a new Category for Psychics and Mediums. If you are a public psychic or medium and you offer your services to the general public, please list yourself in the category by clicking:

www.ghostsnhaunts.com/addlisting.html

I'm hoping we can create one of the most comprehensive lists available on the internet of all things paranormal related.
