Sounds like you're saying &quot;Com'on, I know you're here...&quot;

At which point it responds &quot;...So...&quot; or &quot;...No...&quot; Very nice catch.

Very good catch. It does sound like it's saying so to you after you say we know your here. Keep them coming.

Really nice work. The open air EVPs are so gratifying. I almost cried when I captured my first one.
